

POSSIBILITIES ARE INFINITE

SHAPING THE FUTURE WITH AI, ML, AND BEYOND.

Opening Doors to a Brighter Tomorrow

Dear Clients, Partners, and Technology Enthusiasts,

Welcome to Deccan India Development Corporation Pvt. Ltd. (DIDC)—where innovation, intelligence, and impact converge. We are a next-generation technology company, harnessing the power of Artificial Intelligence (AI), Machine Learning (ML), and Customized Software Development to transform businesses and build sustainable digital ecosystems.

At DIDC, we believe possibilities are infinite when technology is applied with vision and precision. From enterprise ERP and CRM platforms to AI-powered solutions for education, healthcare, finance, law enforcement, and agriculture, we craft digital experiences that redefine efficiency and unlock growth.

Our mission is to create scalable, secure, and future-ready solutions that empower enterprises, startups, and government institutions to lead confidently in the digital era. Beyond delivering products, we build long-term partnerships, ensuring innovation is backed by reliability, support, and trust.

We warmly invite you to join us on this journey of transformation. Together, let's push boundaries, embrace innovation, and shape a smarter, more connected future.

Warm regards,
Gaurav Gaikwad

About Deccan India Development Corporation Pvt. Ltd.

“Possibilities are Infinite,
Intelligent Solutions, Always.”

Who We Are

Deccan India Development Corporation Pvt. Ltd. (DIDC) is a software innovation company where technology meets vision. We specialize in Artificial Intelligence (AI), Machine Learning (ML), ERP/CRM platforms, and customized enterprise applications.

Established with a mission to bridge the gap between technology and business needs, DIDC delivers scalable, secure, and future-ready solutions across multiple industries.

Our expertise lies in designing intelligent digital ecosystems that empower organizations to innovate faster, operate smarter, and grow sustainably.

Our Approach

- **Innovation-Driven** – Every solution is infused with AI/ML intelligence.

- **Industry-Focused** – Tailored applications for education, healthcare, finance, legal, agriculture, and construction.

- **Partnership-Oriented** – We don't just deliver software; we build long-term technology partnerships.

- **Global Mindset** – Combining local insights with global best practices.

Where We Operate

Headquartered in India, DIDC works with:

Enterprises & SMEs – Custom ERP, CRM, and SaaS deployments

Government & Institutions – Secure, AI-powered solutions (DMS, Evidence Collection, Police ERP)

Startups & Innovators – Agile tech development with scale in mind

What Sets Us Apart

01 AI & ML First Approach

We don't just build software — we build intelligent systems. From predictive analytics to natural language processing, every solution is powered by AI/ML to give our clients a competitive edge.

02 Industry-Wide Expertise

We serve education, healthcare, finance, legal, agriculture, real estate, and cooperative housing, making DIDC a one-stop partner for cross-industry digital transformation.

03 Strong Integration Capabilities

Our systems are designed to work with the tools you already use — Tally, Razorpay, WhatsApp Cloud API, Google Cloud, Firebase, and more. This ensures seamless adoption and faster ROI.

04 End-to-End Partnership

From consulting and development to deployment and SLA-driven support, we walk the journey with our clients, ensuring long-term success.

Vision, Missions, & Facilities

Vision

To be a global leader in AI-driven digital transformation, empowering businesses, institutions, and communities with intelligent, secure, and scalable technology solutions.

Missions

- 1. Deliver World-Class Technology**
Build AI, ML, ERP, and SaaS solutions that solve real-world challenges and drive measurable business impact.
- 2. Foster Innovation**
Invest in research, talent, and creativity to continuously push the boundaries of software development.
- 3. Promote Digital Inclusion**
Ensure technology is accessible and adaptable across industries, geographies, and business sizes.
- 4. Build Sustainable Partnerships**
Create long-term relationships with clients by combining innovation, trust, and SLA-backed support.
- 5. Empower Businesses for Tomorrow**
Enable enterprises, startups, and government institutions to thrive in a fast-changing digital ecosystem.

AI & Machine Learning Solutions

From predictive analytics and NLP-powered chatbots to computer vision and OCR systems, our AI solutions help enterprises automate processes, unlock insights, and stay ahead in competitive markets.

CRM Solutions

Our CRM platforms manage leads, customers, and sales pipelines with advanced automation, analytics, and AI integration—enabling businesses to strengthen customer relationships and boost growth.

Custom ERP Development

We design and deploy ERP solutions tailored to industry needs, including finance, HR, inventory, procurement, and project management.

Our ERP platforms help organizations streamline workflows, reduce costs, and achieve operational excellence.

Web & Mobile Application Development

We develop responsive web portals, SaaS platforms, and mobile apps using Flutter, PHP, Python, and modern frameworks, ensuring cross-platform compatibility and a smooth user experience.

☘ Data Analytics & Business Intelligence

Our BI dashboards and analytics tools transform raw data into actionable insights, empowering smarter, faster decision-making.

☘ Cloud & IT Consultancy

We specialize in integrating third-party systems like Tally, Razorpay, WhatsApp Cloud API, Firebase, Google Cloud, and payment gateways, ensuring seamless digital ecosystems.

☘ Support & Managed Services

With SLA-driven support, AMC, and regular updates, DIDC ensures that technology keeps performing long after deployment.

- SLA-Driven Support – Guaranteed uptime, quick response, and dedicated technical assistance.
- Proactive Maintenance – Regular updates, security patches, and performance monitoring.
- End-to-End Management – AMC, troubleshooting, and continuous improvement for long-term reliability.

Our Products & Solutions

At DIDC, our product suite is designed to meet the diverse needs of enterprises, startups, and government institutions. Each solution is scalable, AI-enabled, and industry-ready, helping organizations accelerate digital transformation.

Core Products

Our curriculum emphasizes a strong foundation in:

Integy ERP

An intelligent ERP platform that manages finance, HR, inventory, procurement, and projects – all in one system.

Helix CRM

Smart CRM designed to track leads, manage customer interactions, and improve sales performance with AI-driven insights.

Selexic Pay

“Selexic Pay is a smart payroll and compliance platform that automates salary processing, tax deductions, and contractor payments.

Scholar ERP

Scholar ERP is a comprehensive education management platform that streamlines admissions, fees, academics, examinations, HR, and parent-student engagement ”

At DIDC, our product suite is designed to meet the diverse needs of enterprises, startups, and government institutions. Each solution is scalable, AI-enabled, and industry-ready, helping organizations accelerate digital transformation.

Business & Industry Solutions

Our curriculum emphasizes a strong foundation in:

Truly POS

Cloud-based Point-of-Sale solution for retail businesses with inventory, billing, and reporting features.

Petrosoft365

ERP platform tailored for petrol pumps & fuel stations – managing billing, stock, and compliance.

Curex

Healthcare management software for hospitals & clinics with appointments, billing, and patient records.

Sarathi DMS

OCR-enabled Document Management System for government and police, with metadata-based fast search.

At DIDC, our product suite is designed to meet the diverse needs of enterprises, startups, and government institutions. Each solution is scalable, AI-enabled, and industry-ready, helping organizations accelerate digital transformation.

Business & Industry Solutions

Our curriculum emphasizes a strong foundation in:

Helix Civitas

Construction ERP with AI-powered project management, asset tracking, and financial controls.

Thinker AI

An AI-powered education assistant offering Q&A, test generation, and personalized learning.

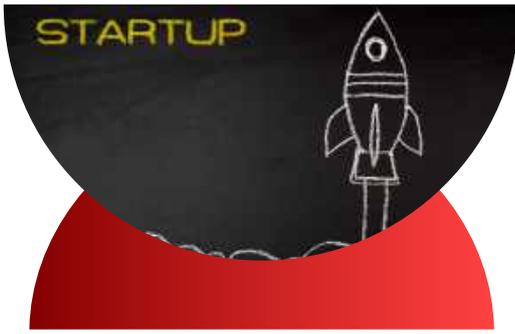

Algorithmic

Algorithmic LMS is a next-generation learning management system designed to deliver structured courses, interactive training.

The SOL Chatbot

The Sol Chatbot is an AI-powered virtual assistant that delivers real-time engagement, automates support, and enhances customer experiences across websites, mobile apps, and messaging platforms.

01 Helix Ignite (Startup ERP)

Startups can scale with an ERP designed for growth and agility, including:

- Finance & Accounting – invoicing, expense tracking, and GST compliance.
- HR – Manage payroll, attendance, and employee records.
- Sales & Operations – Lightweight CRM and operations tools to support scaling businesses.

02 Helix Civitas (Construction ERP)

- Project Planning & Budgeting – Track timelines, resources, and costs in real time.
- Procurement & Inventory – Streamlined material requests, vendor management, and stock tracking.
- Asset & Compliance Management – Monitor equipment, safety, and regulatory compliance.

03 Helix Forge (Manufacturing ERP)

Production & Supply Chain Control

Real-time monitoring of manufacturing workflows and logistics.

Quality Assurance

Integrated QC tools to reduce errors and waste.

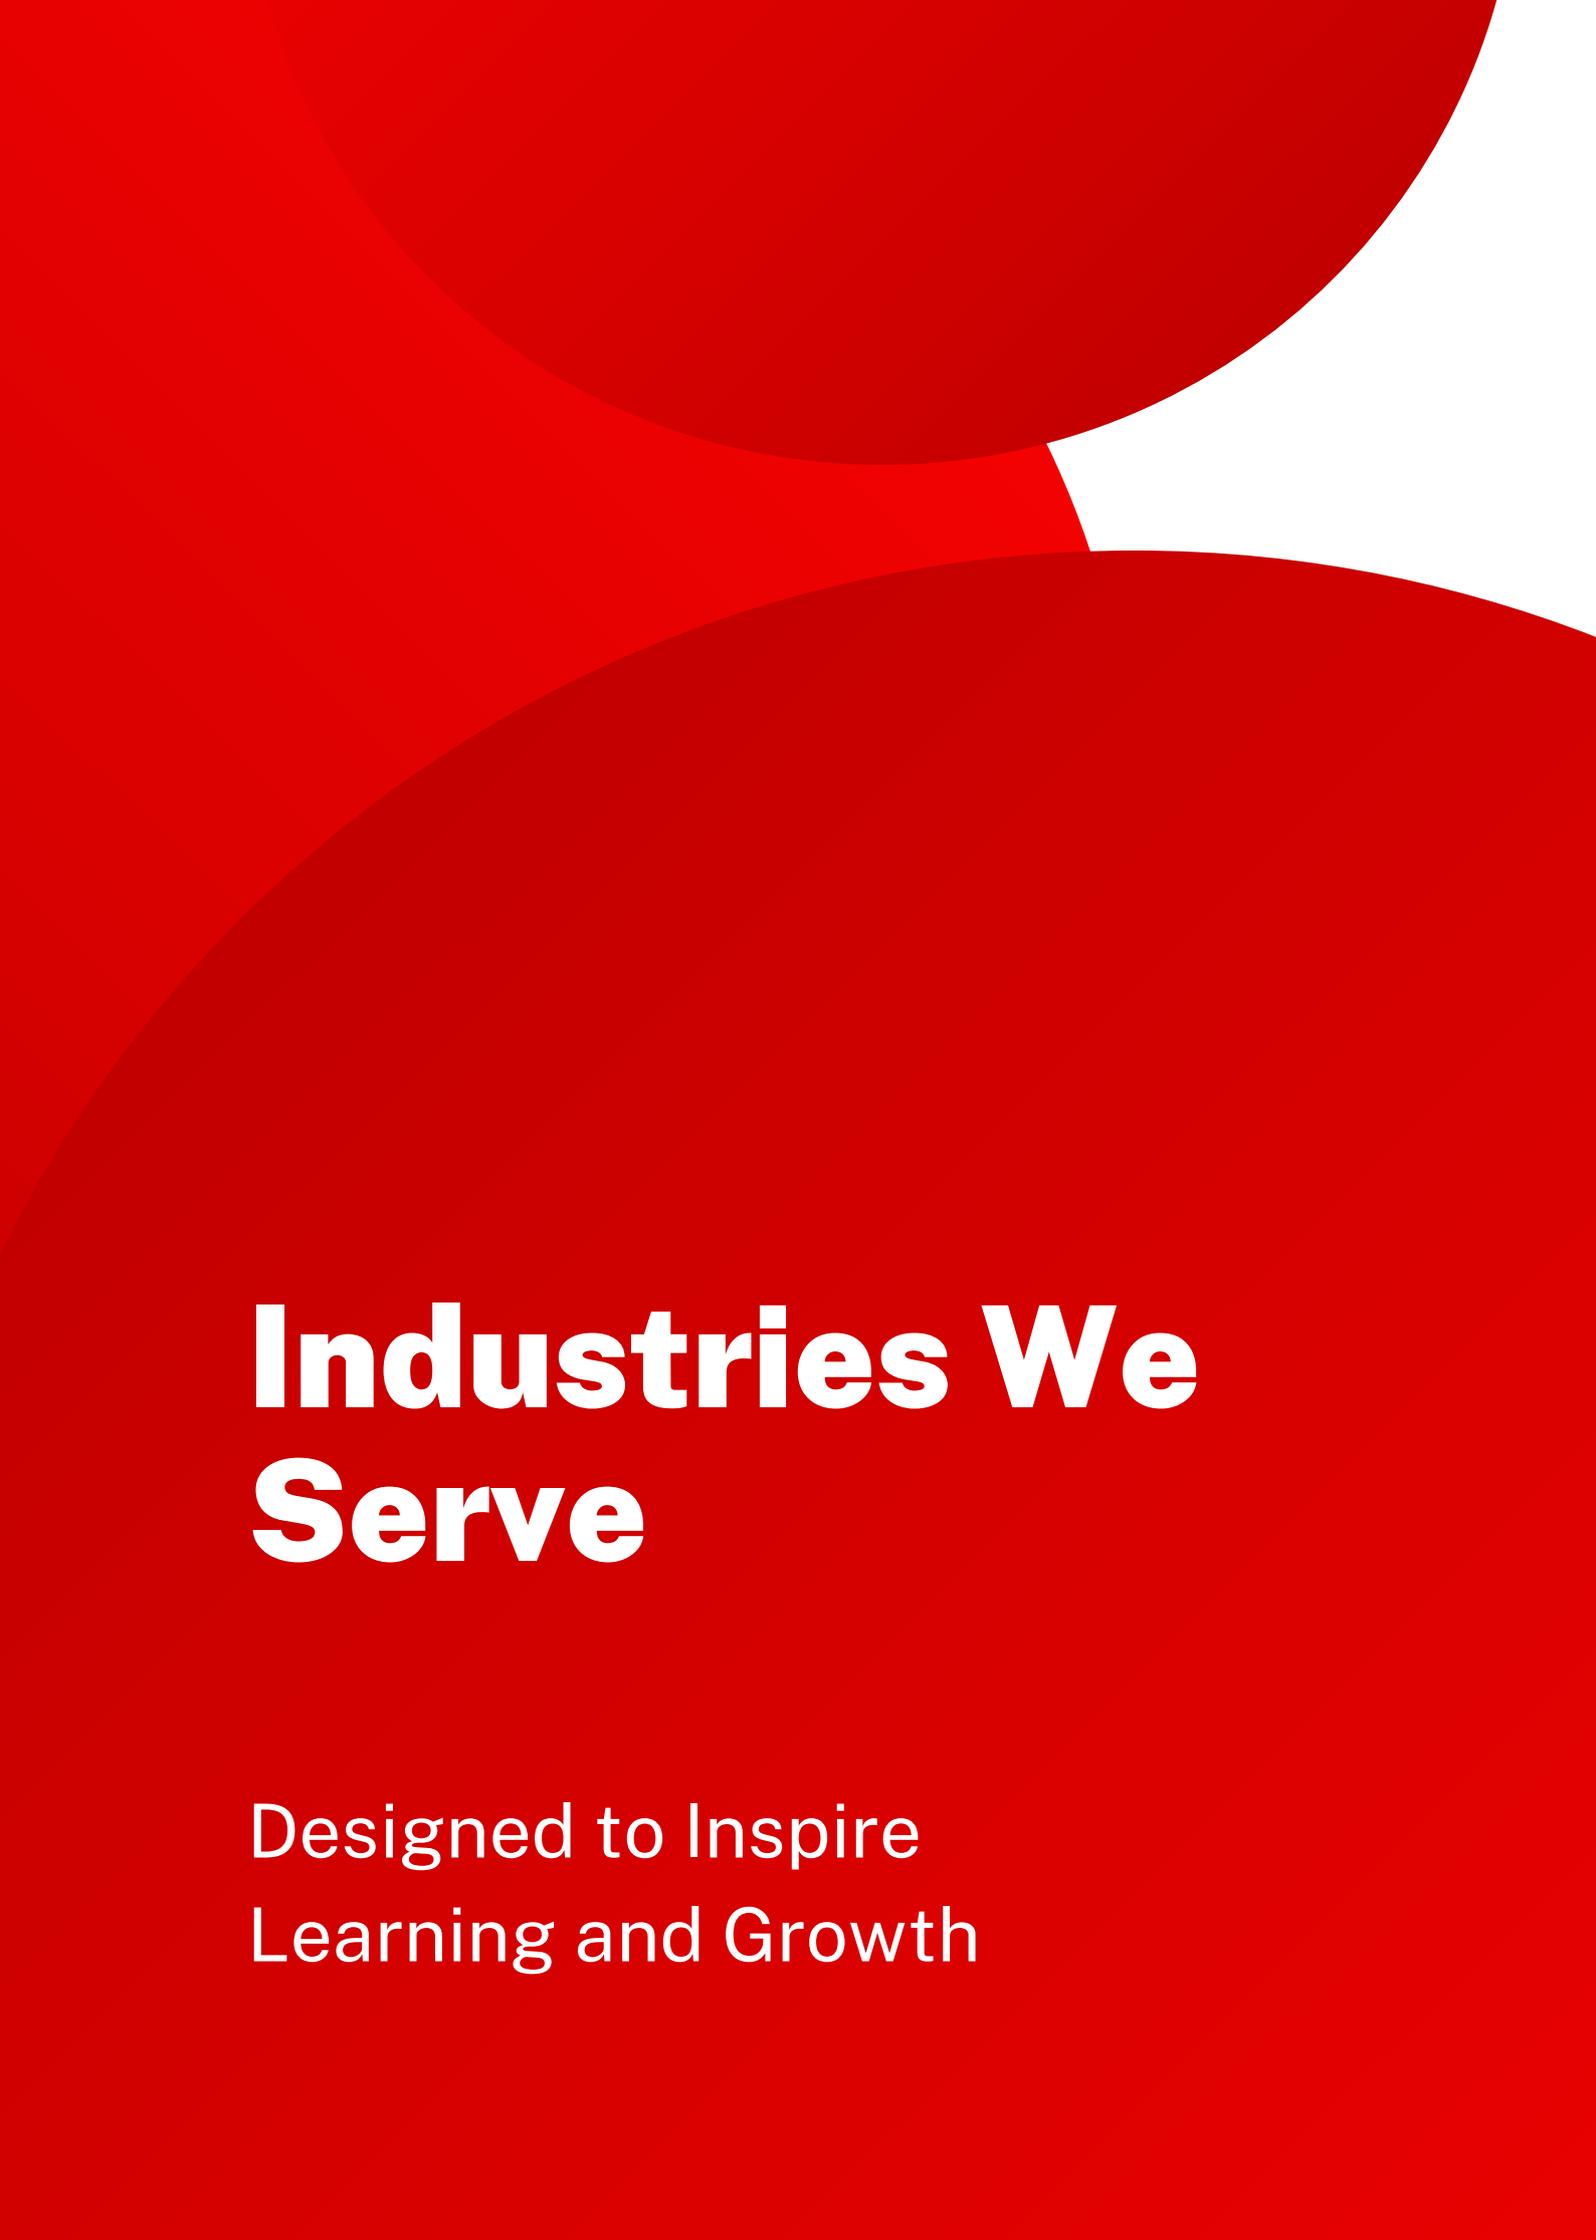

04 Helix Synergy (Distributor ERP)

Order & Invoicing Management

Automated order processing, invoicing, and billing.

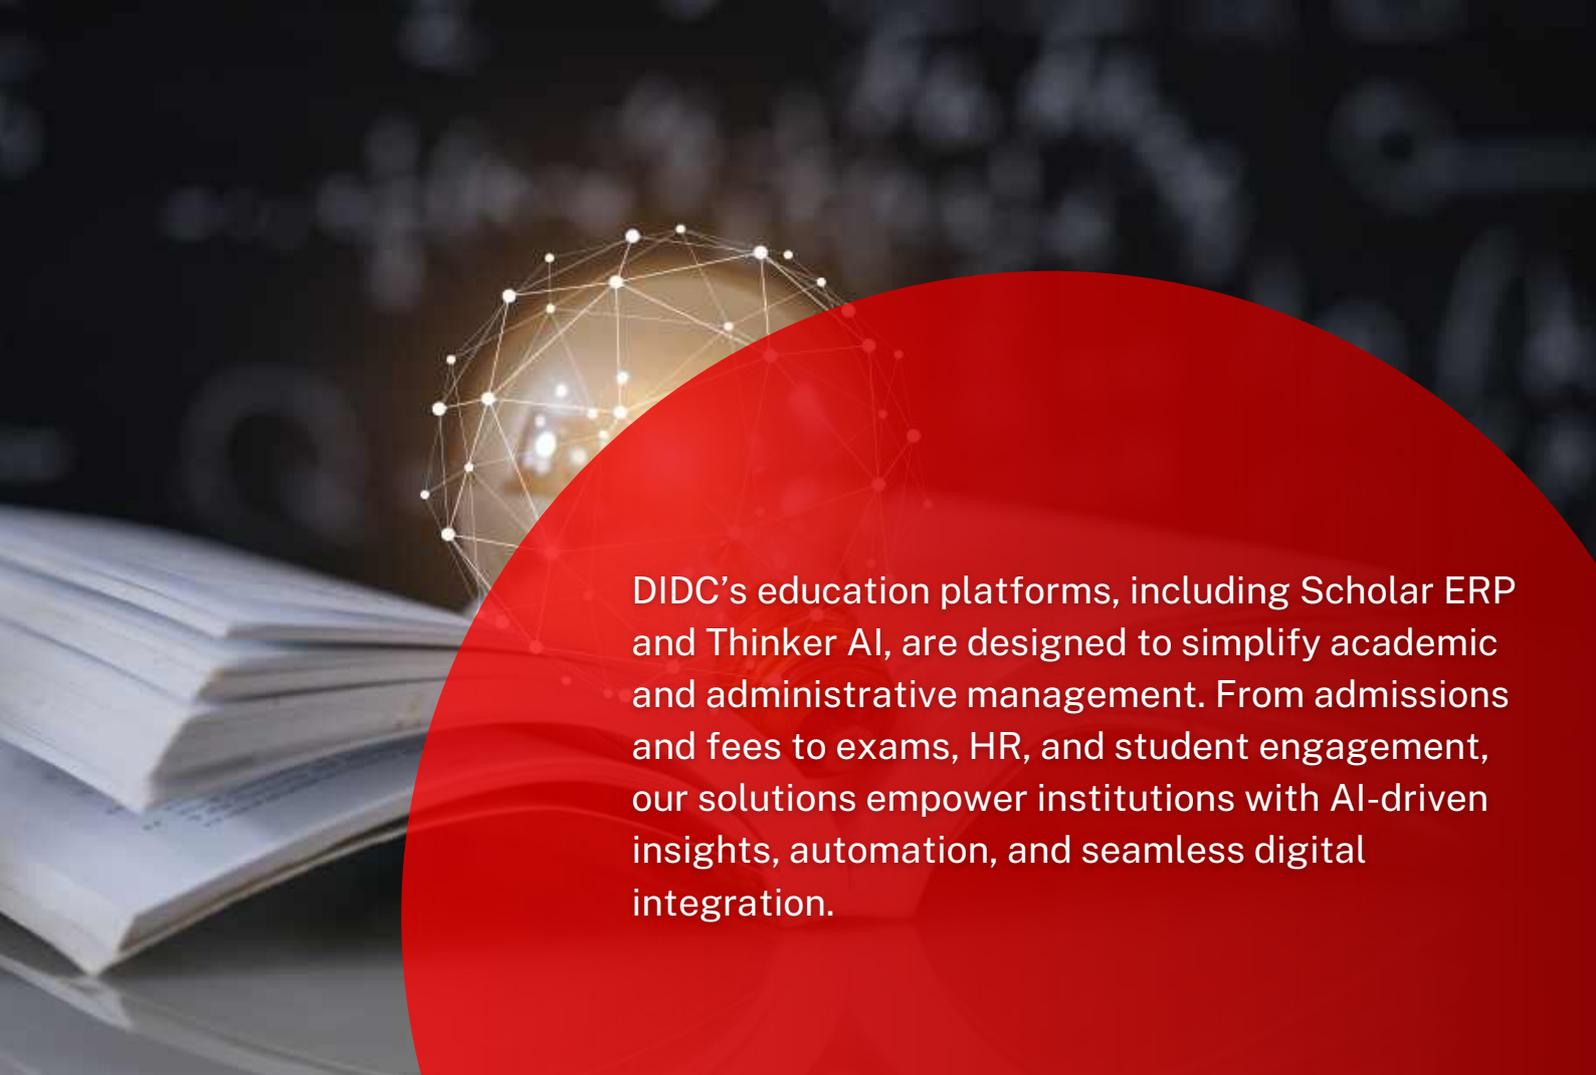

Inventory & Warehouse

Track stock levels and streamline distribution operations.

The background is a solid red color with several overlapping, semi-transparent circular shapes in a darker shade of red. The circles are positioned in the upper and middle sections of the page, creating a layered, abstract effect.

Industries We Serve

Designed to Inspire
Learning and Growth

DIDC's education platforms, including Scholar ERP and Thinker AI, are designed to simplify academic and administrative management. From admissions and fees to exams, HR, and student engagement, our solutions empower institutions with AI-driven insights, automation, and seamless digital integration.

Education Technology

Manage admissions, fees, academics, exams, HR, and communication in one platform.

AI-Powered Learning – Personalized student learning tools, academic analytics, and adaptive content delivery.

Seamless Digital Integration – Portals for students, teachers, and parents with mobile-first access.

Finance & HR

01

Selexic Pay

Our Selexic Pay platform simplifies workforce payments, tax compliance, and contractor management. It automates payroll, ensures statutory compliance, and minimizes manual effort for HR and finance teams.

02

Selexic HRM

organizations can manage attendance, leave, payroll, and employee self-service in one system. AI-powered analytics help HR leaders make smarter decisions and boost workforce productivity.

03

Finexa

It streamlines bookkeeping, invoicing, GST/e-Way bill compliance, and financial reporting. With AI-powered insights and integration with Tally & ERP systems, maintain accurate records, improve cash flow visibility, and make smarter

Manufacturing

Smart Manufacturing ERP

streamline supply chain, production, inventory, and HR management. With AI-powered forecasting and automation, factories can minimize downtime, improve efficiency, and scale operations.

Connected Factory Intelligence

Integrating production, inventory, and supply chain into one unified ERP, DIDC ensures seamless data flow across departments. With IoT and AI-driven insights, manufacturers gain real-time visibility, automated reporting, and smarter decision-making — all within a single platform.

Healthcare

01 Curex – Hospital Management System

A complete hospital ERP for appointments, billing, pharmacy, and patient records. CurexERP helps clinics and hospitals streamline operations, reduce waiting times, and improve patient care.

02 AI-Powered Healthcare Analytics

With AI-driven dashboards, hospitals can track patient outcomes, optimize resources, and predict healthcare demands. This ensures better decision-making and improved quality of service.

Construction & Real Estate

01 Helix Civitas ERP

A dedicated construction ERP that manages projects, procurement, budgets, and assets. It provides real-time visibility into construction workflows, ensuring projects are delivered on time and within budget.

02 Smart Real Estate Management

ERP solutions for real estate developers, including sales, investor presentations, compliance tracking, and customer management. AI tools forecast demand and optimize resource allocation.

Legal & Law Enforcement

01

Sarathi DMS

OCR-enabled document management system for police departments and courts. Sarathi DMS allows batch uploads, fast metadata-based search, and secure access control, making document handling more efficient and transparent.

02

AI Legal Assistance

AI-powered assistants that help lawyers, investigators, and officers by providing quick legal references, drafting assistance, and intelligent recommendations. Enhances productivity while reducing research and documentation time.

03

Legal Edge

A cloud-based platform for case management, client collaboration, billing, and document automation. Legal Edge empowers law firms to streamline operations, improve client service, and adopt AI-driven legal research & insights.

Cooperative Housing Societies

DIDC delivers a dedicated ERP for housing societies, helping committees manage finance, communication, compliance, and facilities in one platform. With AI-powered automation, societies can reduce manual effort and ensure transparency for all members.

Value to Societies

01

Smarter Administration
Over 100+ features to manage members, meetings, notices, billing, and maintenance digitally.

02

Transparent Finance
Integrated accounting with auto-generated reports, online payments, and audit-ready compliance.

03

Resident Engagement
Mobile-first portals for members to access notices, pay fees, raise complaints, and track services.

The background is a vibrant red color with several overlapping, semi-transparent circular shapes of varying sizes, creating a dynamic and modern aesthetic.

Industrial Suite

Powering Industries
with Intelligence.

“Helix Forge is a smart manufacturing ERP that integrates production, supply chain, quality control, and predictive maintenance — helping factories reduce downtime, optimize resources, and scale efficiently.”

🔗 Key Highlights

- End-to-End ERP – Covers project management, procurement, inventory, HR, finance, and compliance.

- AI-Powered Forecasting – Predicts material demand, workforce allocation, and machine maintenance.

- Integrated Operations – Connects supply chain, production, and accounting in a single ecosystem.

🔗 Inspiring Industries

Our Industrial Suite is trusted across:

- Manufacturing – Smart factory management with IoT integration.
- Construction – Helix Civitas ERP for real-time project monitoring.
- Energy & Infrastructure – Asset-heavy industry support with predictive maintenance and safety compliance.
- Transport & Logistics – ERP modules for fleet, routes, and operational optimization.

Testimonials from Alumni

Project Management

End-to-End Planning & Tracking

“Manage projects with real-time visibility on tasks, budgets, milestones, and resources.”

Procurement & Inventory

Smart Supply Chain Control

“Automated purchasing, vendor management, and inventory tracking to optimize costs and reduce delays.”

Asset & Equipment Management

Lifecycle Monitoring

“Track equipment usage, servicing, insurance, and performance to maximize ROI and reduce downtime.”

Finance & Accounting

Compliance & Control

“Integrated accounting with invoicing, ledgers, GST/e-Way bills, and audit-ready financial reports.”

HR & Payroll

Workforce Simplified

“Manage attendance, payroll, compliance, and employee self-service on one unified platform.”

Our Proven Process

From Vision to Execution

Driving Digital Transformation
Through Innovation

“At DIDC, every project follows a clear and proven process — from understanding your vision to delivering scalable digital solutions. Our approach ensures innovation, integration, and long-term success for our clients.”

Our Process

01 Consulting & Discovery

We begin by understanding your business goals, workflows, and challenges. Our experts map out the right digital strategy for maximum impact.

02 Design & Development

Our team builds tailored ERP, AI/ML models, and enterprise applications using scalable and secure frameworks.

03 Integration & Migration

We integrate seamlessly with your existing tools (Tally, Razorpay, WhatsApp API, Google Cloud, etc.) and ensure smooth data migration.

04 Deployment & Training

We roll out solutions with minimal disruption and train your teams for smooth adoption.

Why Choose DIDC?

Proven Expertise

Over a decade of delivering AI, ML, ERP, and SaaS solutions across industries. With a decade of experience in AI, ML, ERP, and SaaS, DIDC has delivered successful solutions across industries.

Scalable & Secure

Our platforms grow with your business, ensuring security, compliance, and future readiness. Our platforms are built on secure architectures and designed to grow with your business needs.

End-to-End Solutions

From consulting and development to deployment and SLA-driven support, we cover the complete digital journey. From consulting and development to deployment and support, we partner with you through every stage of transformation.

Client-Centric Approach

Every project is built around your goals, with measurable ROI and long-term partnerships. Every solution is tailored to client goals, ensuring measurable ROI, smooth adoption, and long-term success.

“Over 100+ enterprises and institutions trust DIDC to deliver digital transformation.”

Strategic Partnerships

Partner With Us

Building Smarter Futures
Through Collaboration.

At Deccan India Development Corporation (DIDC), we believe that collaboration is the key to innovation. By partnering with enterprises, government institutions, distributors, and technology providers, we create opportunities for shared growth and long-term success.

Key Partnership Achievements

Strategic Collaborations

Successfully partnered with enterprises, government institutions, and distributors to deliver large-scale digital transformation projects across multiple sectors. Built strong alliances with Google Cloud, WhatsApp API, Razorpay, Tally, and OCR providers, ensuring our solutions remain globally competitive and future-ready.

Global Recognition

- Awarded for innovation in ERP, AI, and SaaS solutions across industries.
- Trusted by enterprises, institutions, and government agencies in India and abroad.

Proven Partnerships

- Delivered large-scale digital transformation projects with measurable ROI.
- Collaborated with global tech providers (Google Cloud, Razorpay, WhatsApp API, OCR platforms) for future-ready solutions.

Collaboration Opportunities

1. Technology Partnerships

Partnerships with schools in the USA, UK, Japan, and Australia enable students to gain cross-cultural experiences and broaden their horizons.

2. Enterprise Collaborations

Exclusive workshops and mentorship opportunities with top universities prepare our students for higher education success.

3. Channel Partnerships

Become a reseller or distribution partner and bring DIDC's solutions to new markets.

Why It Matters

Access to World-Class Solutions

Leverage DIDC's AI, ML, and ERP expertise.

Revenue Opportunities

Generate new income streams through joint solutions.

Together we Growth

Strong partnerships built on transparency, trust, and innovation.

Contact Us

We're here to answer your questions and explore how DIDC can help transform your business with AI, ML, ERP, and custom digital solutions. Whether you're an enterprise, government body, or startup, our team is ready to collaborate.
